Lara Lee Martin is the only person in attendance.

Gave her a tour of the facilities. We spoke about the program and what I looked forward to accomplishing with the students by the end of the year.

Shared the Coffee idea and she agreed that it was good.

I made some Chinese dumplings for our dinner. She asked If the Students had made them, and I told her that they did. She thought they were very good and well formed. Very impressed and she said that exposure to international cuisine was a great for employment possibilities.

we briefly spoke about the needs of employers in the area. It seems like they need employees that will show up!
