

MINUTES ADVISORY BOARD MANUFACTURING

Date 12/12/2020

Time 5:15 - 6:35

Attendance Don Venice

Meet and greet in the classroom talked about what the manufacturing program is currently teaching . Talked about the future welding portion of the program. Talked about our 21st century skills and how that is preparing students for future employment.

Tours of the lab area showed Don students projects and new machinery since he has not been in the lab since before COVID.

Returning to the class talked about the future of the program and the local employment opportunities for the students.

Adjourned 6:35
