

Minutes of Advisory board meeting

Thursday 11/9/2023 @ 2:30 PM

All members were contacted multiple times announcing the meeting time,place and agenda. No members were able to attend.

Don Venice[Full flex] , and Lars Blocker [Bradford Machine] emailed, sending regrets that they could not attend . Don said he was out of the country for business.

Molly Holleran [American Precision Museum] sent regrets that she had a conflict at that time but is interested in participating in the future.

Orin Knapp [Chroma] said he wants to participate in the future but could not make it that day because he was traveling for business.

Mike Pickeet HAAS Machinery reached out to me that day. When I told him he may be the only participant. He said he may pass on the advisory board meeting and come to my shop for a visit in the next week or two with pizza in hand. I said that was a solid plan.
